Avient Announces Registration Details for 2023 Sustainability Day

CLEVELAND – August 28, 2023 – Avient Corporation (NYSE: AVNT), a leading provider of specialized and sustainable material solutions, has announced registration details for a virtual Sustainability Day for investment professionals on Wednesday, September 20, 2023, from 9 a.m. – 11 a.m. ET.

“Avient serves a unique role in enabling the sustainability goals of our customers through the application of material science in nearly every end market,” said Jamie A. Beggs, Senior Vice President and Chief Financial Officer, Avient Corporation. “We are excited to take a deep dive into our sustainability portfolio by sharing specific applications and technologies, as well as discussing the megatrends that will support sustainable solutions as a long-term growth driver.”

Sustainability Day participants will hear presentations and insights from members of Avient’s executive team, and the event will conclude with a question and answer session.

The webcast can be viewed live at avient.com/investors, or by clicking on the webcast link [here](#). Conference call participants in the question and answer session should pre-register using the link at avient.com/investors, or [here](#), to receive the dial-in numbers and a personal PIN, which are required to access the conference call. The question and answer session will follow the company’s presentation and prepared remarks.

A recording of the webcast and the slide presentation will be available at avient.com/investors/events-presentations shortly after the live webcast.

About Avient

Avient Corporation (NYSE: AVNT) provides specialized and sustainable material solutions that transform customer challenges into opportunities, bringing new products to life for a better world. Examples include:

- Dyneema®, the world’s strongest fiber™, enables unmatched levels of performance and protection for end-use applications, including ballistic personal protection, marine and sustainable infrastructure and outdoor sports
- Unique technologies that improve the recyclability of products and enable recycled content to be incorporated, thus advancing a more circular economy
- Light-weighting solutions that replace heavier traditional materials like metal, glass and wood, which can improve fuel efficiency in all modes of transportation and reduce carbon footprint
- Sustainable infrastructure solutions that increase energy efficiency, renewable energy, natural resource conservation and fiber optic / 5G network accessibility

Avient is certified ACC Responsible Care®, a founding member of the Alliance to End Plastic Waste and certified Great Place to Work®. For more information, visit www.avient.com/.
